

Garrett Roberts**Software Engineer | Technology Consultant | AWS Certified Cloud Practitioner****Boulder, CO**

Experienced software developer and consultant with a passion for crafting innovative solutions. Skilled in full-stack development, API integration, and custom visual component creation. Recognized for delivering high-quality projects for prominent household name companies. Experienced in leading and mentoring development teams.

Professional Experience:**Technology Consultant 1 | Credera | 2021 - 2024**

- Unified several disparate APIs to save on cloud computing fees for a \$1.2 billion revenue platform.
- Developed robust and scalable web applications for high-profile clients, ensuring adherence to industry best practices.
- Led a cross-functional team of QA professionals, overseeing testing processes and ensuring the delivery of high-quality software products by preventing hundreds of bugs from going to production.
- Provided technical guidance and mentorship to junior team members, fostering their growth and development.
- Actively participated in code reviews and architectural discussions to maintain code quality and improve team productivity.
- Utilized a wide range of technologies, including JavaScript, Typescript, SQL, HTML, CSS, React, Vue, Java, Spring, Angular, and Scala.

Software Engineer | Techtonic | 2020 - 2021

- Completed an intensive software development apprenticeship program for six months that led to full time employment as a software engineer.
- Worked directly with client to design APIs and custom visual components for a CMS platform.
- Collaborated with a team of developers and designers to deliver high-quality software solutions within project timelines.
- Participated in Agile development processes, including daily stand-ups, sprint planning, and retrospective meetings.
- Acquired practical knowledge in software development best practices and industry-standard tools.
